WASH

WAter Surface Hygiene

WHEREVER A PERFECTLY DE-OILED AND CLEAN
WATER IS ESSENTIAL

Innovative and unique cleaning surface

Designed to match the highest standard in water surface cleaning from oil and foam, produced by feed and enrichments;

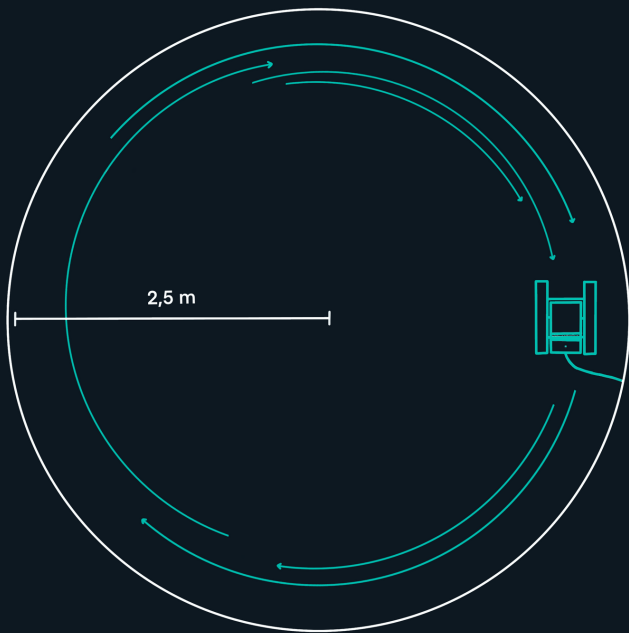

100% safe for application in larval rearing tanks;

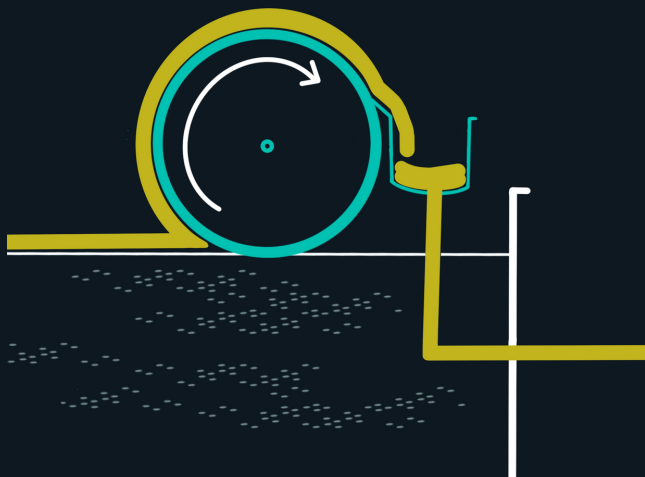

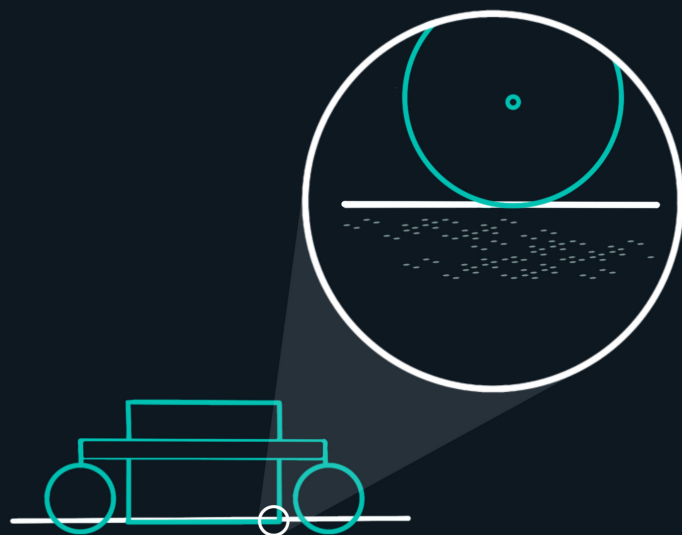

Engineered and built in EU with top quality and durable materials.

WASH

One unit perfectly cleans tanks up to 5 m diameter *

The self-balancing technology grants safety passage for Fish Larvae *

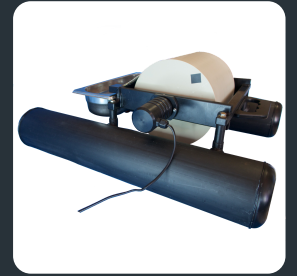

The automatic drainage reduces human effort and increases cleaning performances *

***Tested in industrial hatcheries.**

WASH

- Adjustable speed, high removal potential up to 32 l/h;
- Built with acid & disinfectant proof materials;
- Safe for water application due to low voltage;
- WASH gives you the freedom to use human resources for higher skill activities.

DEGREE OF AUTOMATION

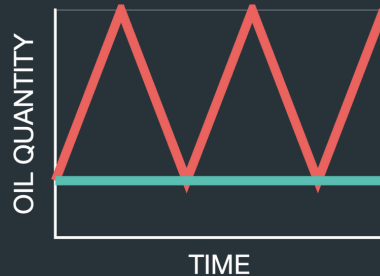

W.A.S.H.

Technical Specification

- Dimension: 600 x 500 x H240 mm
- Polypropylene; Polyethylene; stainless steel 316 L
- 24 V motor
- Adjustable speed

Configurations

- 24 V input Version
- 100 - 240 V input Version
- Passive drainage
- Active drainage

TESTED IN MARINE INDUSTRIAL HATCHERIES
